WHAT THE MOTORIST WILL WEAR.

shops catering to this trade. state that such fashions are well defined, even to the minutest accessories, ing a little bit above the leggin top.

The mandates for the sults are that the those materials.

marily be pointed towards prac-ticability and comfort and these or Eton styles. Also some negligee tele-wrist for the same protection. These ragrealized, then the accomplishment scope effects are permissible.

clothes is evidenced in the productions now trousers are either button or lace at the be made to the suit or trouser pockets to be found in any of the well equipped knee. These trousers are similar in style without disturbing the outer garment as to those in vogue for the cyclist during to unbuttoning. These garments are for For those men who desire to affect the the height of that craze a few years ago. the most part finished off with lap seams prescribed fashion in auto attire we desire Puttee leggins are worn with this costume, or heavy stitching.

anted in the garments the authentic ma-terials, colors and styling for the devotee cord, petrel cloth, kanki and natural lin-in contra-distinction to the garments that the business man wears, who merely uses tan, pearl and gray, and in the petrel most bell-shape in their flare and sweep of

The mandates for the suits are that the conts be cut Norfolk with belts and boxplaits. The coats are cut yoke effect, the yoke extending to the top button of the Raglan, gaberdines and slipons. There are the Raglan, gaberdines and slipons. The regular colors are cut along the lines of the belts close with two buttons and are, of course, of the same material and pattern as the balance of the garment. All edges, lapels, cuffs and pockets are lap seamed. Usually cravenetted and waterproof materials are employed.

The best usage has established that the caps should be of the same material and

of artistic effect may be given

The trousers are cut peg-top with taiconsideration. That grace, utility lored cuff buttons and are all of the full
and esse can be embodied in the motorist's knickerbocker effect. The cuffs on these slash diagonal vents, so that entrance may
